

Historical games

Interactive and students activating classes introduce the history of Białystok and bring closer the figure of Ludwik Zamenhof, the creator of Esperanto. We start with visiting the permanent exhibition "Białystok of Young Zamenhof", and then we invite the participants in the two classes previously picked from the list below:

Esperanto in action

Introduction to the history of Esperanto: what was its purpose? who was its creator? what is an artificial language? The practical part consists of learning words and phrases in Esperanto with the concentration game.

In the footsteps of Zamenhof

A board game introducing important facts from the life of Ludwik Zamenhof and the history of Białystok. Fun and competition consolidate knowledge acquired during the exhibition.
